

**Toya's problem is so severe that she has the best
doctors in the country working on it.**

Toya's problem is that her parents can't afford health insurance.

Many people in this country can't afford health insurance. But the American Medical Association (AMA) has a proposal that would provide coverage and choices for everyone, including families like Toya's. The AMA is hundreds of thousands of doctors treating patients and working on their behalf. Visit VoiceForTheUninsured.org to view our proposal.
