

**Steve's problem is so urgent that he has the best  
doctors in the country working on it.**

**Steve's problem is his pre-existing condition and no health insurance.**

High-risk patients in our health care system are, in effect, punished for having health care needs. But the American Medical Association (AMA) has a proposal that provides coverage for everyone, regardless of their health status. The AMA is hundreds of thousands of doctors, treating patients and working on their behalf. Visit [VoiceForTheUninsured.org](http://VoiceForTheUninsured.org) to view our proposal.
